## EXPERIENCE

<b>Fyle</b> <i>Member of Technical Staff 3</i>	<b>FEB 2023 - Present</b> <i>Bengaluru</i>
<ul style="list-style-type: none"><li>• <b>Enhanced integrations</b> across multiple accounting systems, including Netsuite, Xero, Intacct, and QBO, improving data synchronization and reducing error rates.</li><li>• <b>Designed and implemented scalable backend solutions</b>, optimizing system performance and ensuring seamless functionality for high-volume API calls.</li><li>• <b>Integrated robust monitoring systems</b> using Grafana and Sentry, enabling proactive identification and resolution of recurring issues, minimizing downtime.</li><li>• <b>Refactored APIs</b> to improve performance, scalability, and maintainability, contributing to reduced latency and enhanced user satisfaction.</li><li>• <b>Led and managed production deployments</b>, ensuring smooth rollouts and maintaining system uptime during critical updates.</li><li>• <b>Spearheaded integration support</b>, effectively debugging and resolving P0-level issues under high-pressure situations, enhancing client trust and system reliability.</li><li>• <b>Took ownership of on-call responsibilities</b>, quickly diagnosing and mitigating high-severity incidents to ensure operational stability.</li><li>• <b>Actively contributed to strategic initiatives</b>, including roadmap planning, cross-team collaboration, and process optimization, driving alignment across engineering teams.</li><li>• <b>Automated integration workflows</b> by developing custom scripts and tools, increasing operational efficiency and reducing manual efforts.</li><li>• <b>Promoted twice within 18 months</b> in recognition of exceptional contributions to system scalability and reliability.</li></ul>	
<b>Boongg</b> <i>Full Stack Developer Intern</i>	<b>MAR 2022 - JUN 2022</b> <i>Pune</i>
<ul style="list-style-type: none"><li>• Developed an dynamic chat-bot which will help users to communicate easily.</li><li>• Collaborated with team members to create automated payment system.</li><li>• Developed a CRM to visualise data and easily manage system.</li></ul>	
<b>Abekus</b> <i>Python Back-end Developer Intern</i>	<b>NOV 2021 - MAR 2022</b> <i>Bangalore</i>
<ul style="list-style-type: none"><li>• Worked on data-set preparation, web-app interface development, API Development.</li><li>• Developed API for generating XML files for google search.</li></ul>	

## EDUCATION

<b>Vidyalankar Institute of Technology</b> <i>Bachelor of Engineering (BE) in Information Technology</i> <b>GPA - 9.34/10</b>	<b>2019-2023</b> <i>Mumbai</i>
<b>Ferguson College</b> <i>Higher Secondary School Certificate (HSSC) in Science. <b>Percentage - 71.23%</b></i>	<b>2017-2019</b> <i>Pune</i>

## KEY INITIATIVE & CONTRIBUTIONS

### Integration Optimizations | Python, Django

- Implemented direct export functionalities for major integrations (Netsuite, Intacct, Xero).
- Enhanced API logging, error handling, and implemented Django Q2 for efficient task queuing.

### Monitoring and Alerting Systems | Grafana, Python, Kubernetes

- Added alerts for integrations like Business Central and Sage 300 using Sentry and Grafana.
- Monitored integration performance, resolving production issues swiftly.

### Cross-System Synchronization | Python, Django

- Improved synchronization flows between internal platforms and accounting systems.
- Enabled efficient handling of deleted categories and projects across platforms..

## TECHNICAL SKILLS

**Programming and Frameworks:** Python, SQL, NoSQL, Advanced Django, Flask, FastAPI, REST APIs, PostgreSQL

**Tools & Platforms:** Git, GitHub, Grafana, Sentry, Locust (Load Testing), Docker, Kubernetes, Integration SDKs (Netsuite, QBO), Test-Driven Development, CI/CD Pipelines, Monitoring and Logging Systems
